## W05-P1: Show 6 photos in css grid

The screenshot shows a browser window with developer tools open. The left side displays the file structure and code editor for a project named 'w05\_68'. The right side shows a preview of a webpage with a grid layout. The developer tools' element inspector highlights the CSS rule for the `.blogs-center` class, which uses the `grid-template-columns: 1fr 1fr;` property to define a two-column grid.

## W05-P2: Use RWD breakpoints to show blogs

Screenshot of a browser developer tools interface showing CSS styling for a blog grid layout. The browser window displays a grid of blog cards, each featuring a thumbnail image, a title, and a brief description. The developer tools' Elements tab is open, highlighting the CSS code for the .blogs-center class.

```

body {
    font-family: system-ui, -apple-system, BlinkMacSystemFont,
    font-size: 16px;
    color: var(--grey-dark);
    background-color: var(--grey-light); /* Add a variable */
}

.blogs {
    padding: 3rem 1.5rem;
}

.blogs-center {
    display: grid;
    grid-template-columns: 1fr 1fr;
    gap: 2rem;
}

```

The browser's status bar shows dimensions of 400 x 755 pixels. The developer tools sidebar shows the file structure and the current file being edited: style\_68.css.
